Sampling and Monitoring Activities

Sampling and monitoring, (EPEA and Long Term Sampling and Monitoring Program), have returned to spring / summer requirements as outlined in the Long Term Sampling and monitoring Plan, 2015.

Data Tables have been included in the transmission.

Personnel (during the period)

Backwoods – Monday-Thursday 4 Friday-Sunday 2.

EPO Operations Update:

Visual inspections of the sediment traps, silt curtains and stream flows are ongoing. Sediment trap clean out evaluation and scheduling is currently underway. A work plan for the sediment removal is in development and will be communicated to the AER once complete. The AER will be notified in advance of the clean out process and will record and sample material collected as per the requirements under the Solids Recovery Plan and Report.

EPO Communications Update:

DFO has requested access to complete the fluvial geomorphological work along Apetuwon and Plante.

Alberta Health has requested that the HHRA not be released publically until after they have had time to provide feedback and comments to the updated versions. The HHRA is anticipated to be released publically mid June.
